1.ADAPTATION:

One thing that will breach Trump's wall: climate change

Architects have called the border wall a "pharaonic project." Environmentalists say it will continue to cut off the flow of water and wildlife in a changing climate but won't keep out people. President Trump, though, said yesterday, as he announced an executive order to build a border wall: "Beginning today, the United States of America gets back control of its borders, gets back its borders."
